

Registered Kabala (Sale Deed) No. 6006 of 1980 [?]

Certified sealed copy (sohi moharkrita nakal) — English translation

Record type : Registered deed (1980) — certified copy issued by the District Registrar's Record Room, Moulvibazar

Scope of this translation — please read first

The original is a nine-sheet deed handwritten in 1980s cursive Bengali on government stamp paper, photographed with a phone scanner in uneven light. Unlike the typed khatiyon records translated earlier, much of this handwriting cannot be read reliably from the scan. This document therefore translates the parts that are reasonably legible — the printed stamp-paper text, the certified-copy seals, the deed's key particulars, the general run of each page and the registration endorsements — and marks everything doubtful with [?] or [illegible] in red. It is a working aid, not a certified translation: for any legal use, obtain a fresh certified copy from the District Registrar's office and a professional reading of the original.

Key particulars (as legible)

Nature of instrument	Registered kabala (sale deed) — “registry kabala” stated in the opening line
Deed (Dolil) No.	6006 of 1980 [?] — written “6006/80” at the head of page 1; a second reading gives 3003/80. In this hand the digits 6 (৬) and 3 (৩) are nearly identical and both candidates are symmetric, so the scan cannot settle it. The number is repeated on the endorsement sheet, and the registrar's book/page reference (Book ... 62 [?], pp 257–290 [?]) identifies the deed uniquely either way
Consideration	Tk 10,000/00 [?] — “value Tk 10,000” in the opening line. An alternative reading gives Tk 20,000; three independent machine-OCR passes of the line each return a leading 1, supporting 10,000
Date of execution	18.4.80 (18 April 1980, English calendar) [?]
Purchaser	Md. A–m Ali [? — plausibly Akram Ali], son of ... Achhiyat ... [?], Muslim, resident of ... Kamarchak Union [?], Thana & District Moulvibazar [?] — possibly the Late Akram Ali of the accompanying khatiyon records, but the cursive name is not certain
Vendors	Sri Dasharathi Das Gupta, son of late Dinesh Chandra Das Gupta [per the family's reading of the original], with Himangshu (Chandra) [?] appearing as a further party — the scan reading had instead allowed ‘Dinesh Kumar Das Gupta’ as a second vendor, so whether Dinesh is the father or a co-vendor must be settled from the original. Hindu; of Pargana Chowallish; vendor signatures dated 5/6/80 [?] and 18.4.80 [?] in the margins of every sheet
Property	Mouza Baruna / Motiya [?], J.L. No. 47, Thana Sreemangal [family reading; the registration endorsements name the Sub-Registrar of Rajnagar, and the scan also suggested khatiyans 412 & 411 [?]], Pargana Chowallish, District Moulvibazar — numerous dags with areas in shatak; see the schedule note below
Quantity conveyed	Approximately 2 acres 80 shatak (≈ 2.8 acres) [?] — the clause is only partly legible; see the closing section “How much land was purchased?”
Registration	Endorsed at the Sub-Registry Office, Rajnagar — copied / compared / read by office staff, each dated 5.9.80; recorded as No. 6006 [?] in Book/Volume ... 62 [?] at pages 257–290 [?], year 1980
This copy	Certified sealed copy bearing the round seal “District Registrar's Office, Moulvibazar — Sadar Record Room” on every sheet, signed by the Officer-in-Charge, Sadar Record Room, Moulvibazar [issue date partly legible: .../3/20 [?]]

Stamp papers used (printed matter, translated)

Each sheet is headed “Government of the People's Republic of Bangladesh” with the national emblem, and carries the printed slogan at its foot: “Take the oath of patriotism; bid farewell to corruption.”

Sheet	Stamp value	Printed serial (as legible)
1	Tk 100 (one hundred taka)	Ga-Gha 8010840 [?]
2	Tk 25 (twenty-five taka)	6588066 [?]
3	Tk 25 (twenty-five taka)	6588069 [?]
4	Tk 20 (twenty taka)	Ba 3429010 [?]
5–9	Tk 5 (five taka) each	Ka-Ka 5090398, 5090399, 5090400 [?], 5090401, 5090402 [?]
Total	Tk 195	

Page-by-page rendering of the legible content

Sheet 1 (Tk 100 stamp). “Certified sealed copy.” Seal and signature of the Officer-in-Charge, Sadar Record Room, District Registrar's Office, Moulvibazar. “Deed No. 6006/80.” The deed opens: “Registry kabala, value Tk 10,000/00 ... dated 18.4.80 [?] ...”, then recites the purchaser (Md. A–m Ali [?], son of ... Achhiyat ... [?], Muslim, ... resident of ... Kamarchak Union [?] ... Moulvibazar) and the vendors (Sri Dasharathi Das Gupta, son of late Dinesh Chandra Das Gupta [?], with Himangshu [?], Hindu, of Pargana Chowallish, Thana Sreemangal [?]) ... [remainder of the page largely illegible]. Margins: vendors' signatures and dates (5/6/80 [?], 18.4.80 [?]).

Sheet 2 (Tk 25 stamp). Recitals continue: reference to the Sub-Registry Office of Moulvibazar and to earlier instruments/khatiyani entries (numbers partly legible, e.g. 47007... [?] and 47008... [?] — possibly prior deed numbers with years); mention of the vendors' title and possession; an annual rent of Tk 24.00 [?]; a recital of a right acquired ... in 1944 [?] ... and of Case No. 47 [?] ... decree of a court [?] ... [largely illegible].

Sheet 3 (Tk 25 stamp). The operative declarations, in the customary form: the vendors state that they hold saleable right and possession; that being in need of money [?] they have agreed to sell; that they have received the full consideration of Tk 10,000 [?] in cash from the purchaser and deliver possession of the property to him; and that henceforth neither they nor their heirs retain any right or claim ... [partly illegible].

Sheets 4–8 (Tk 20 and Tk 5 stamps). Further covenants and the schedule (tafsil) of the property: a long, densely written list of plots under the Sub-Registry Offices of Moulvibazar and Rajnagar — including Mouza Baruna [?], J.L. No. 47 [?], khatiyans 412 & 411 [?], and at least one further mouza [name illegible] — with many dag numbers — the two readings combined give 73, 76, 77, 79, 129, 134, 177, 235, 248, 249, 254, 255 [family reading] and 140, 164, 165, 194, 202, 204, 245 [?], 287 [?] [scan reading], agreeing on 248, 249 and 177 — with areas and areas in shatak (readable examples include figures such as 28, 27, 65–66 shatak and 1.74 / 1.42 acres [?]), together with boundary descriptions (“bounded on the north by ..., on the south by ...”). The cursive here is too faint for a reliable plot-by-plot transcription from this scan.

Final sheet — registration endorsements (mixed Bengali and English, handwritten). “Copied by ... [?]”, “Compared by Md. Akhlaur Rahman [?]”, “Read by ... [?]” — each dated 5.9.80; “S.R.” (Sub-Registrar) with “Rajnagar, 5.9.80”; and a Bengali completion note recording the deed in Book/Volume ... 62 [?] at pages 257–290 [?] as No. 6006 [?] of 1980. Several signatures and initials [illegible].

Translator’s note

This translation was prepared from a phone-scanned certified copy of a 1980 handwritten deed. Names, numbers and dates marked [?] are best readings of difficult cursive and must be confirmed against the original before any reliance is placed on them; passages marked [illegible] could not be read at all. If the purchaser is indeed the Late Akram Ali of the accompanying khatiyani records, this deed may document how part of the family’s holdings was acquired in 1980 — but that identification is tentative. A verbatim certified translation would require the original deed or a better scan (flat, evenly lit, 300 dpi or higher). A family reading of the original (July 2026) supplied further particulars — the vendor’s father late Dinesh Chandra Das Gupta, the party Himangshu, Pargana Chowallish, Thana Sreemangal, Mouza Baruna / Motiya — which fit the geography well (Baruna is a known village of Sreemangal upazila within the old Chowallish pargana); these are incorporated above with the points of conflict flagged in red.

How much land was purchased?

The total-quantity clause of the deed sits in the opening line of sheet 1, immediately after the consideration (Tk 10,000/00) and the date. The best reading of that clause is “mot 2 ekor ashi... shatak” — in total, about 2 acres and eighty-odd shatak, i.e. approximately 2.8 acres [?] — but both the “2” and the “eighty” are uncertain readings of the cursive and must not be relied on as they stand.

Sheet 7 contains what appears to be sub-areas being totalled (“11.01 + 15.68 ...” [?]), but that passage is too faint to read reliably. What is certain is that the price was Tk 10,000 and that the schedule spans many plots across at least two mouzas, so a total in the low single-digit acres is plausible for a deed of this value in 1980.

To confirm the exact figure, only one line needs re-scanning: a sharp, straight-on photograph of the first three handwritten lines of sheet 1 (directly beneath “Deed No. 6006/80”), taken flat and in good light, would allow the quantity clause to be read properly and this translation to be updated with the exact figure.
